

Software engineering

Bunch of random stuff, uh and deployment

Skill progressions by applying material:

DevOps +2

UML +1

Design patterns +0-2

Last weeks for some

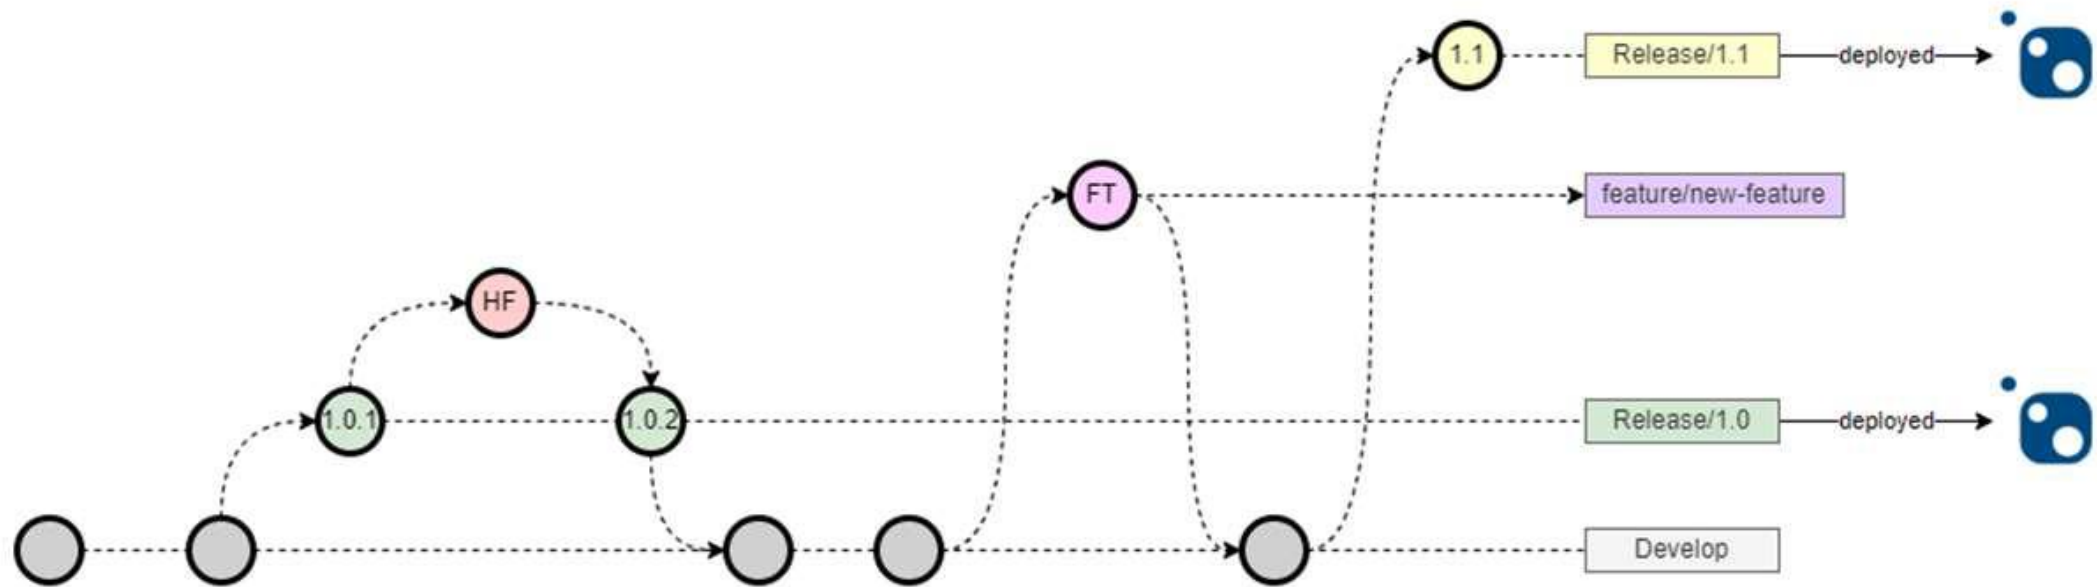

- 3rd year students and Erasmus students only have 12 weeks of study that means that students that are:
 - MI
 - Retake
 - Erasmus
- Will have their last lab/seminar these next 2 weeks. They will not be joining the 2nd year students in their last assignment. Their final grade is calculated to take this into account which they can see in the shared spreadsheet.

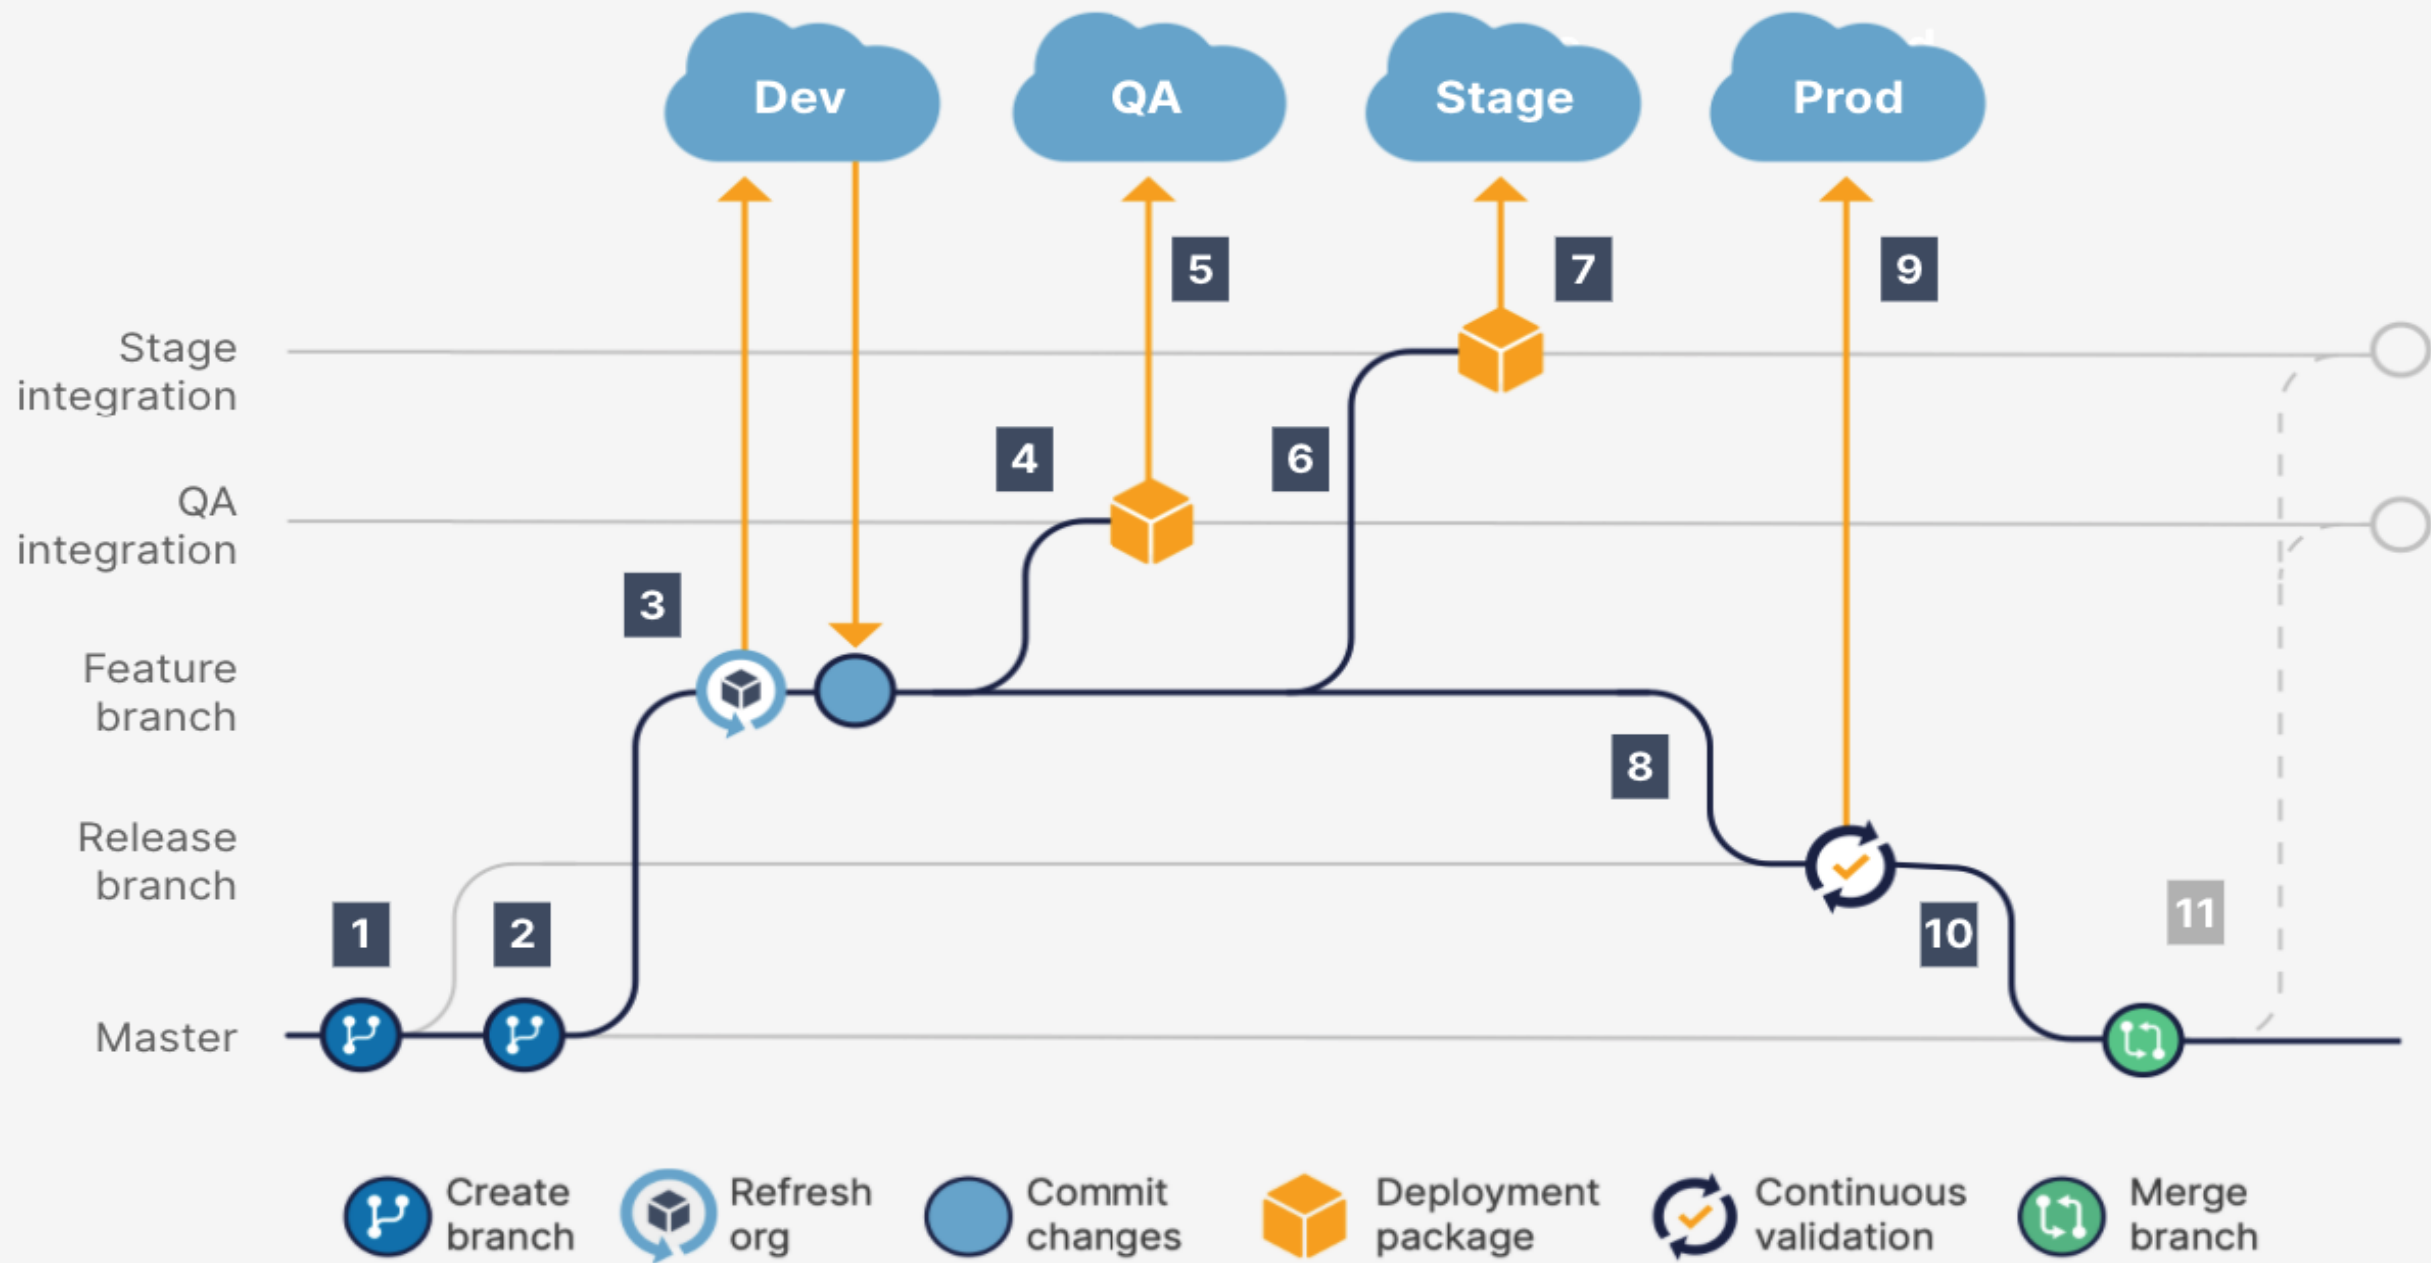

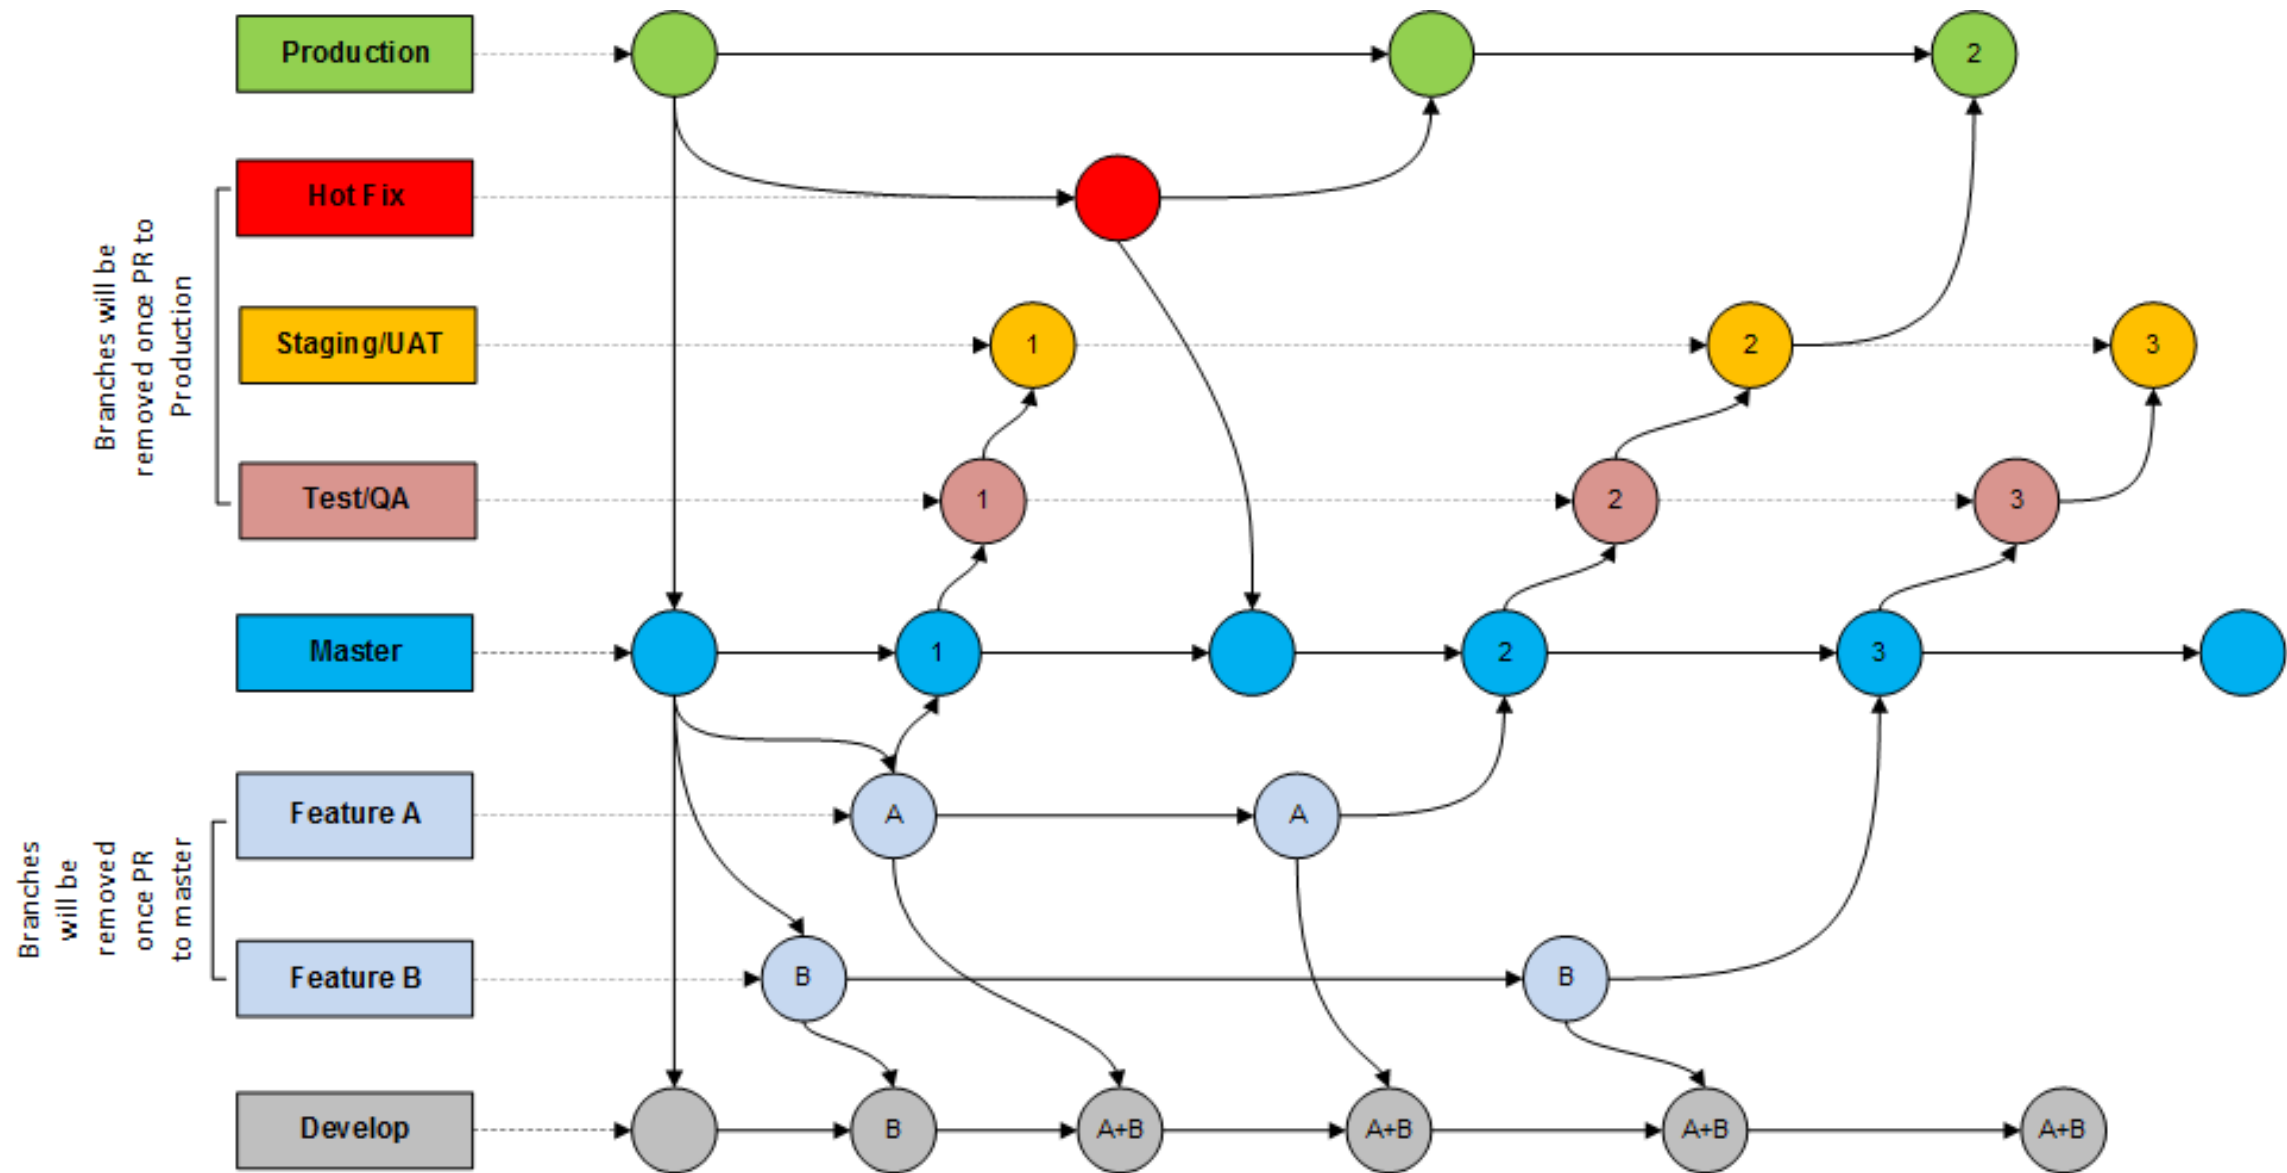

Deploy to server

Feature branch (from previous course)

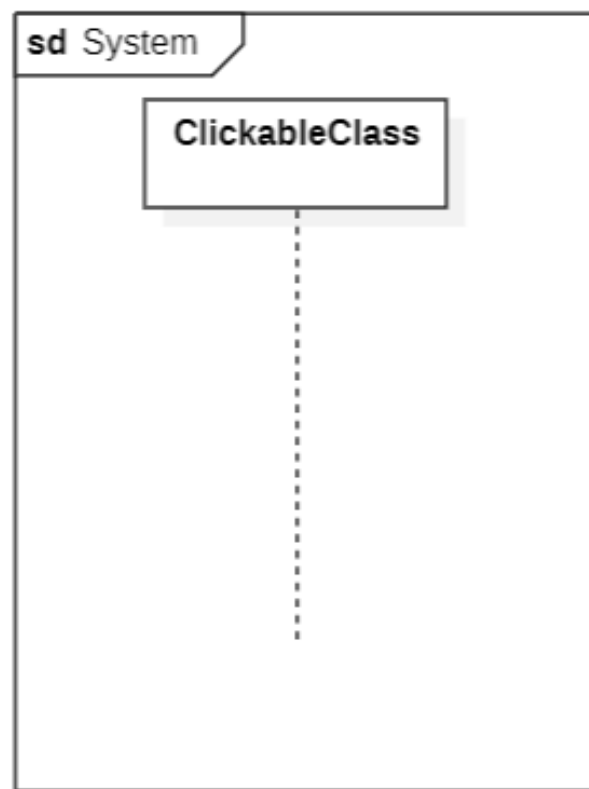

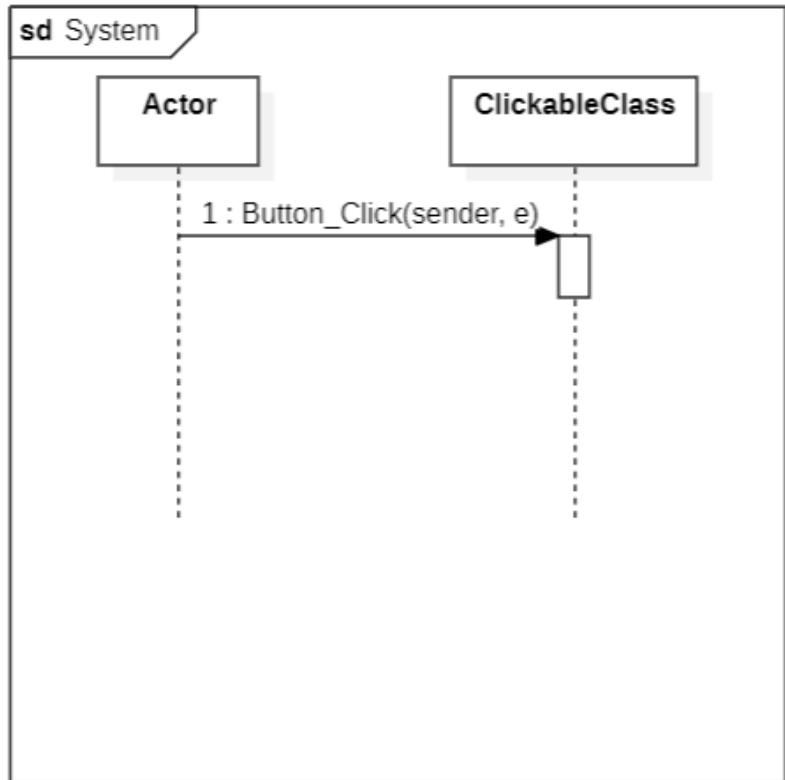

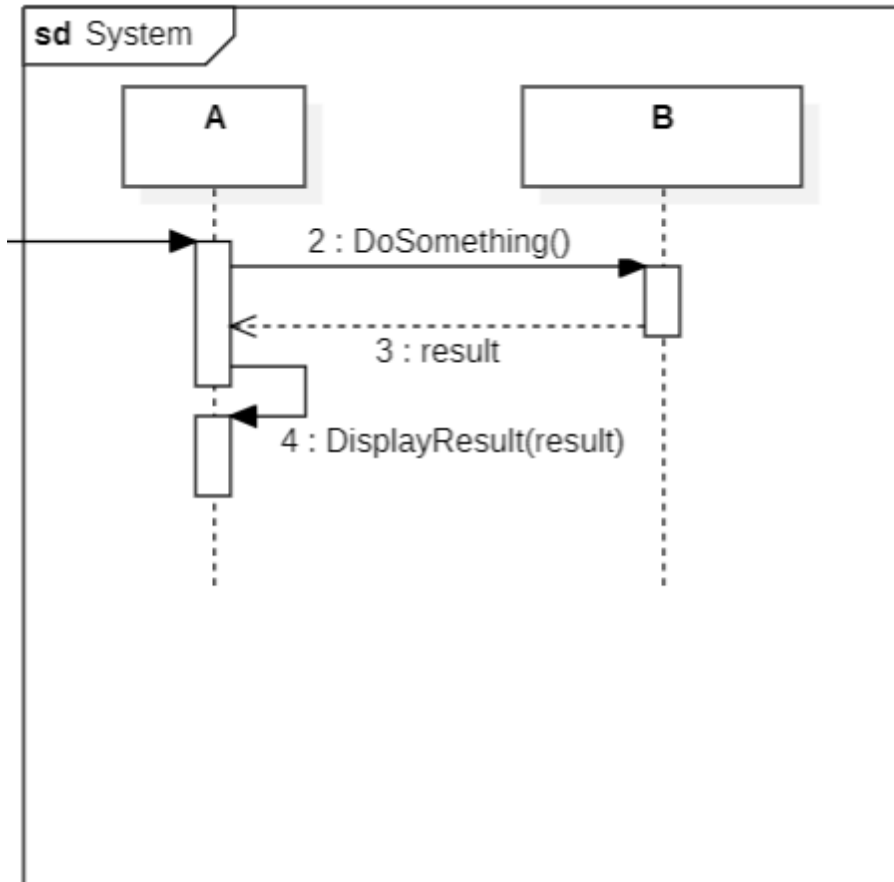

Sequence diagrams

```
public class ClickableClass : Window
{
    private void Button_Click(object sender, RoutedEventArgs e)
    {

    }
}
```

```
public class B
{
    public string DoSomething()
    {
        return "42";
    }
}

private void Button_Click()
{
    string result = b.DoSomething();
    DisplayMessage(result);
}

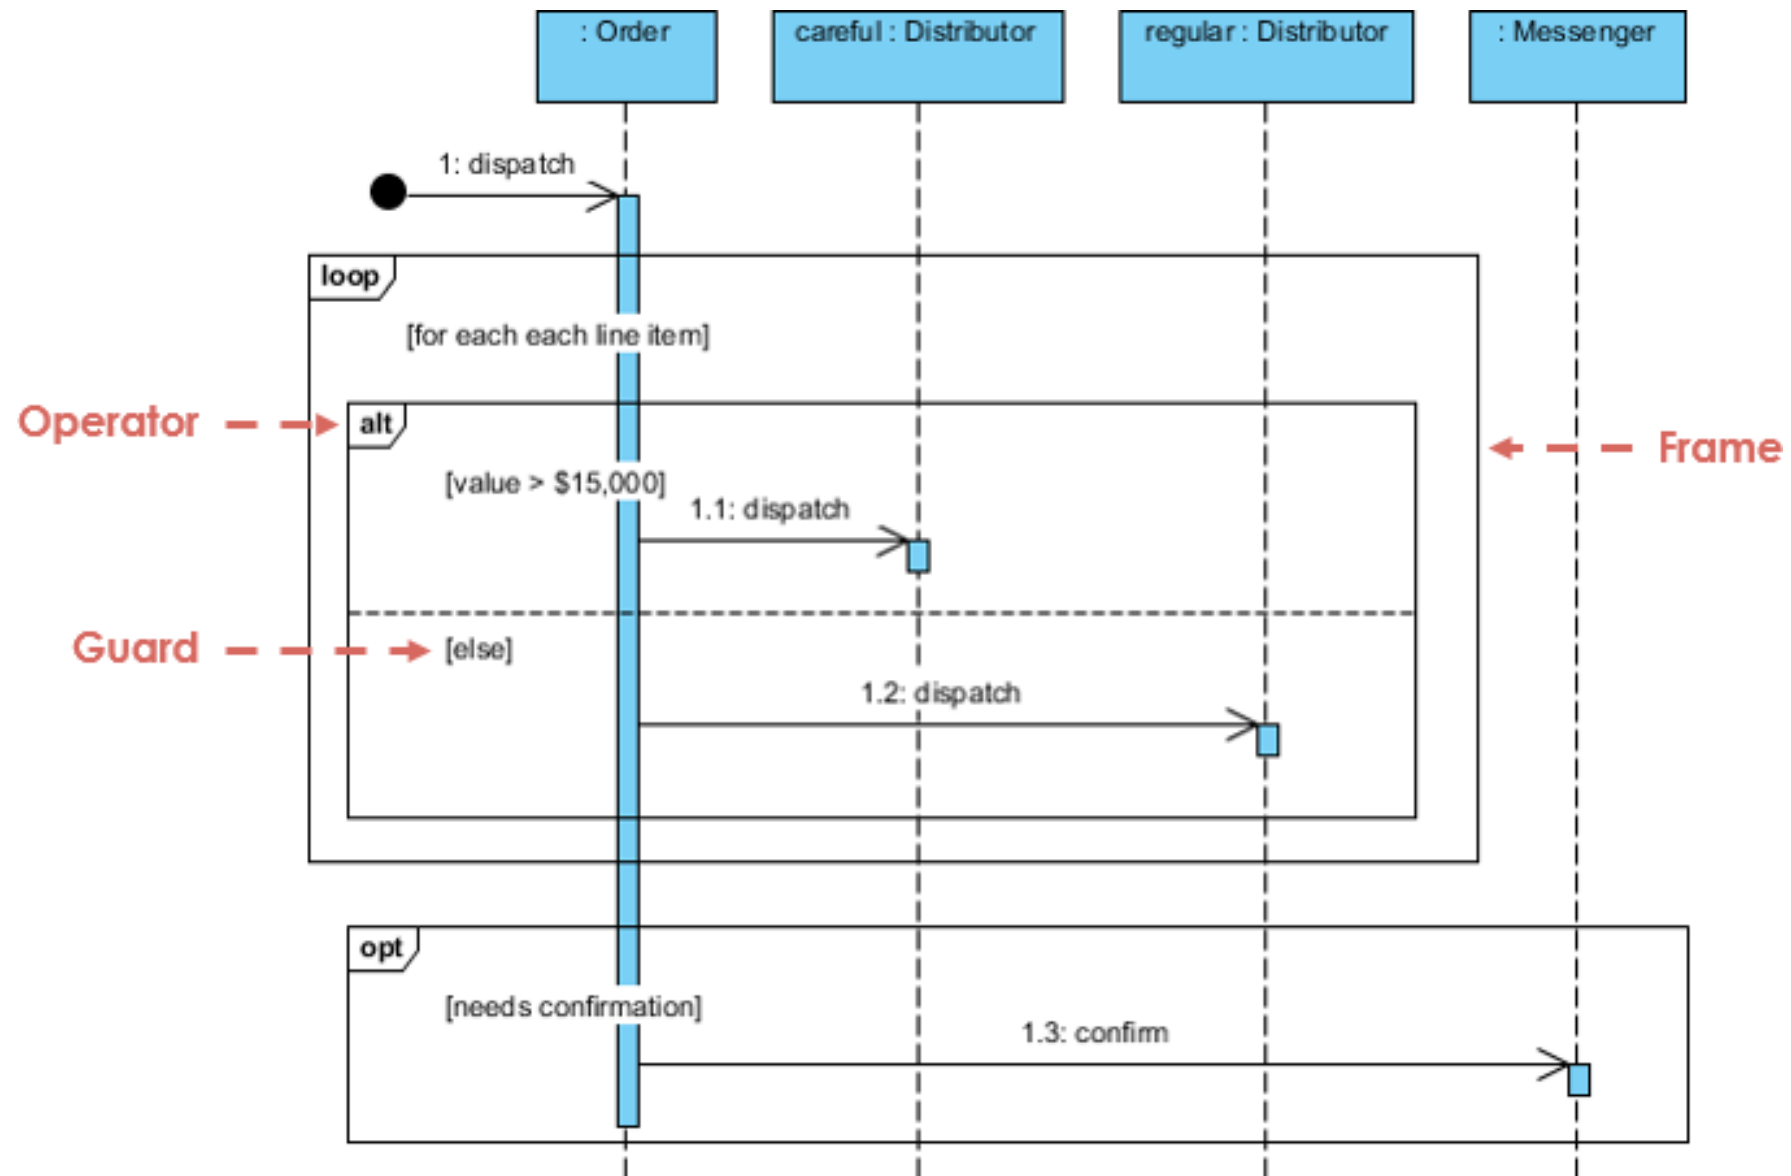

private void DisplayMessage(string message)
{
    MessageBox.Show(message);
}
```

```
private void BeginningAndEnd()
{
    B b = new B();

    b = null; // or b.Dispose()
}
```

Operator	Code equivalent	Description
alt	if	Alternative multiple fragments: only the one whose condition is true will execute.
opt	if	Optional: the fragment executes only if the supplied condition is true. Equivalent to an alt only with one trace.
par	Next semester	Parallel: each fragment is run in parallel.
loop	for / while	Loop: the fragment may execute multiple times, and the guard indicates the basis of iteration.

Search Book : Use Case

- Main scenario -

The Customer specifies an author on the Search Page and then presses the Search button.

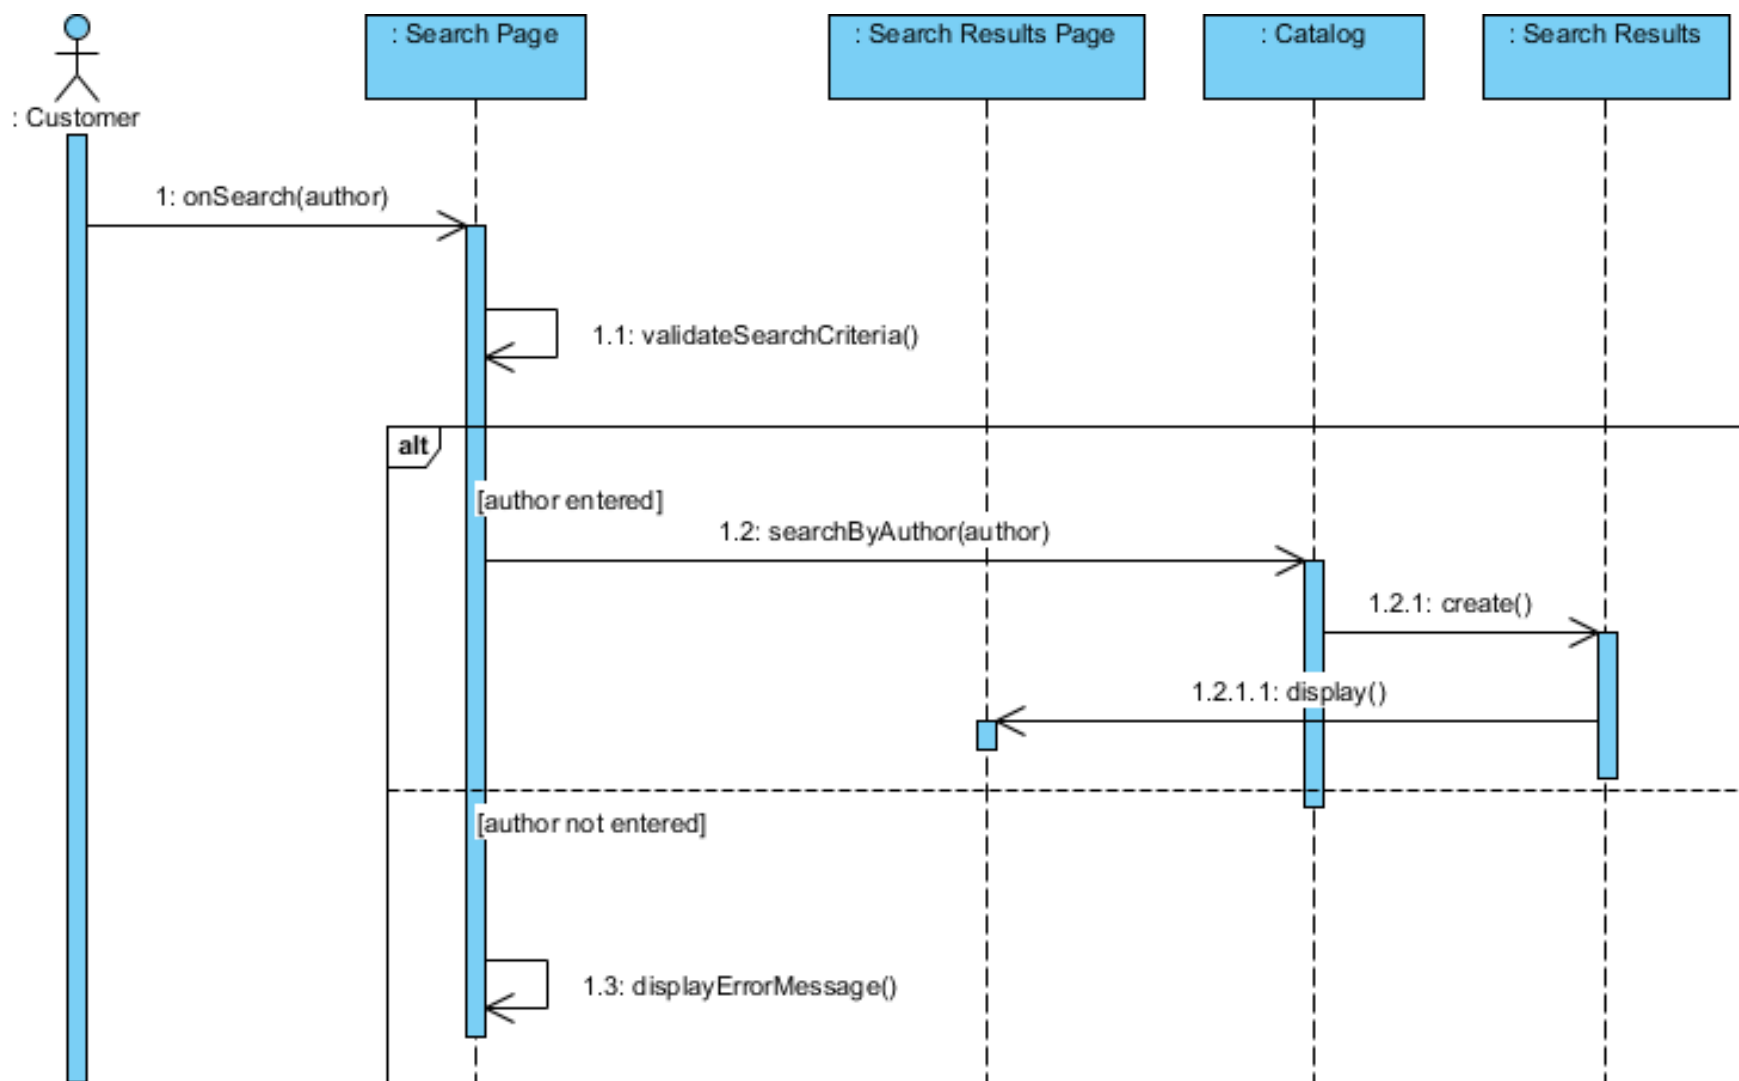

The system validates the Customer's search criteria.

If author is entered, the System searches the Catalog for books associated with the specified author.

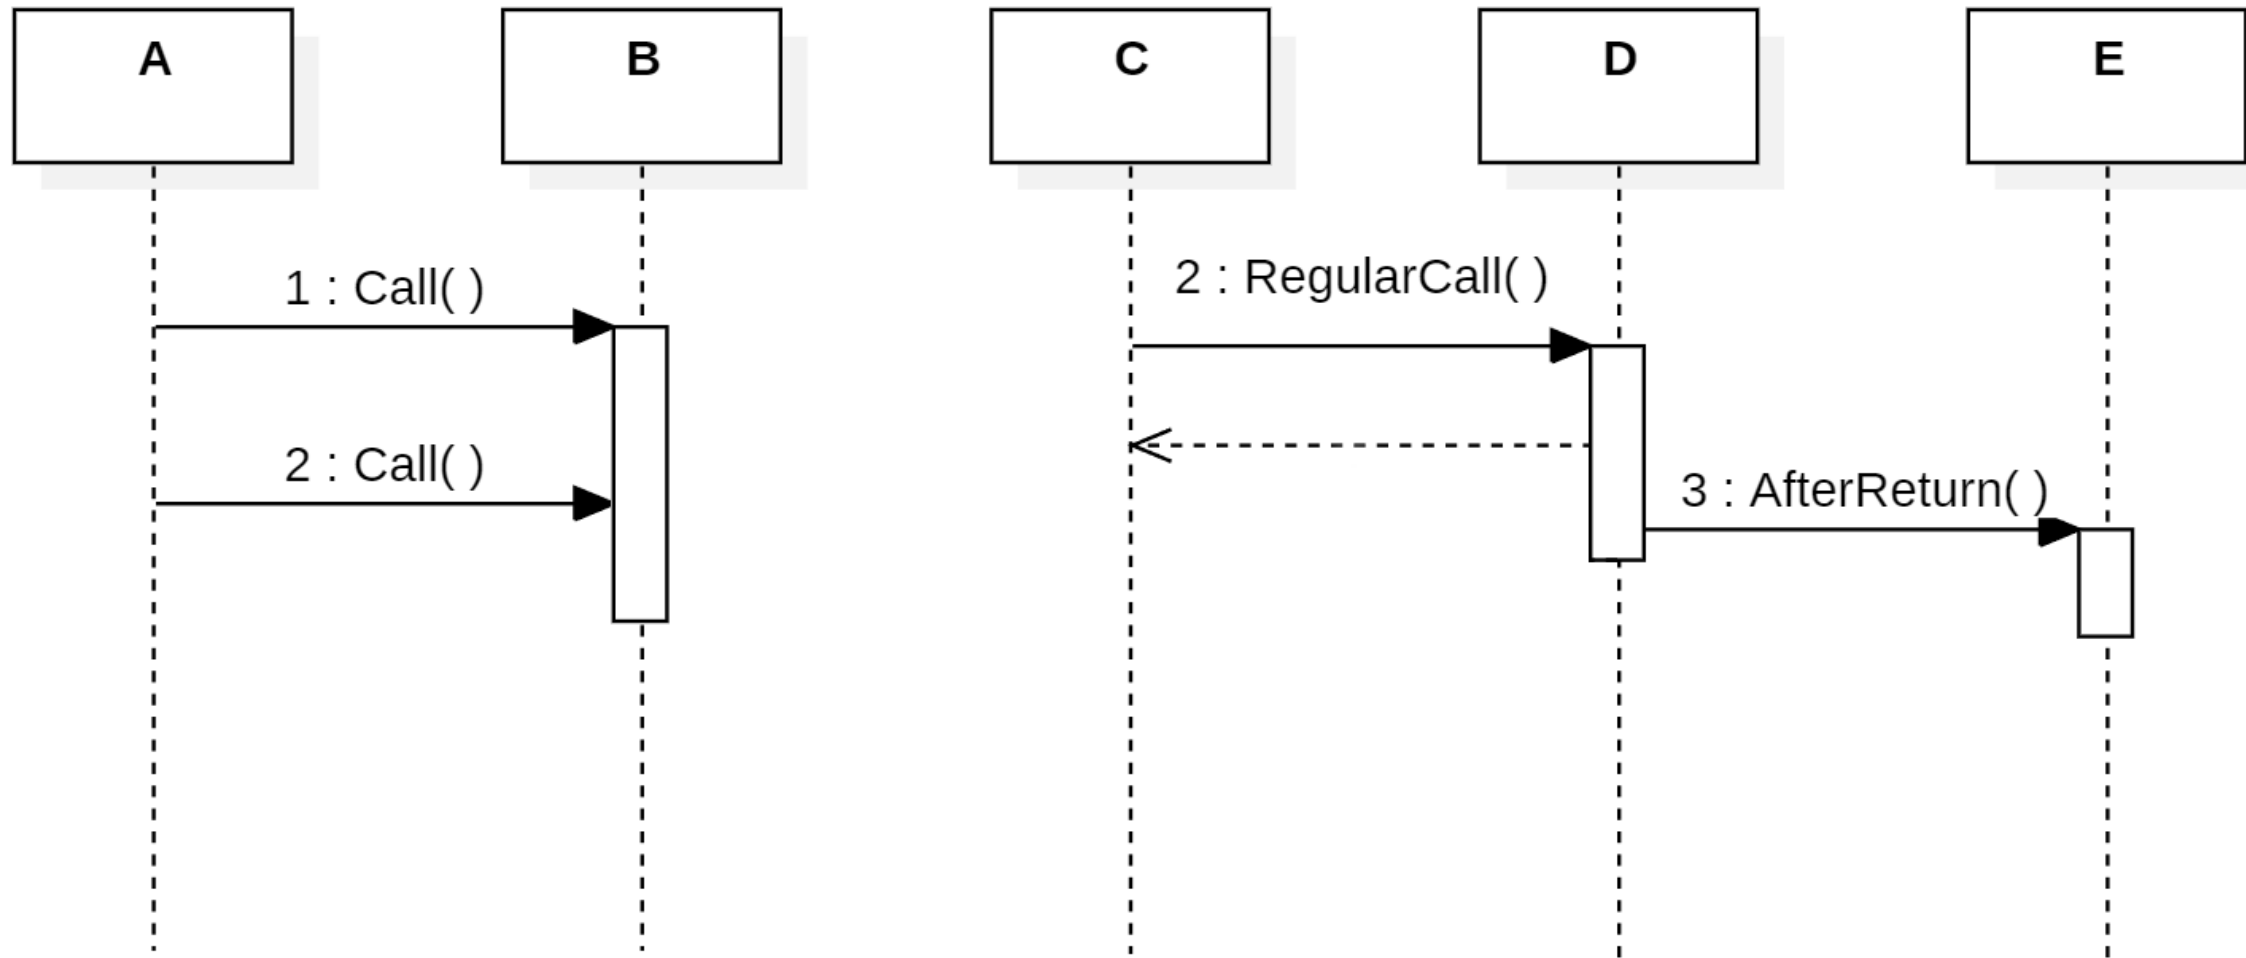

When the search is complete, the system displays the search results on the Search Results page.

- Alternate path -

If the Customer did not enter the name of an author before pressing the Search button, the System displays an error message
